LAND DISTURBANCE (LD) PERMIT CHECKLIST

Project Address: _____ Today's Date: _____

Project Description: _____

Signature: _____ Print Name: _____

The purpose of this checklist is to gather information about the proposed project so to determine what land disturbance permit, if any, is required by the Spokane Valley Municipal Code (SVMC).

Starting with Part 1 and working from top to bottom, please answer the following questions.
The first "Yes" identifies the type of land disturbance (LD) permit required.

PART 1 – Is LD work exempted or already covered? (SVMC 24.50.020) If so then LD permit not needed.

- Yes No Does your project only have to do with emergency utility work; cemetery graves; eliminating septic tanks; digging out a basement; building a wall less than 4 feet high; disposal of refuse that is covered under other regulations; already permitted mining, quarrying, stockpiling of aggregate material (rock, sand, gravel, aggregate, or clay) or exploratory excavations done under the direction of a licensed engineer or engineering geologists? If yes, then project exempted from a LD permit.

PART 2 – Engineered Grading Permit needed? (SVMC 24.50.030; 2 sets plans, 1 set calcs etc. from Engineer)

- Yes No Will this grading be for a short plat, subdivision or binding site plan?
 Yes No Will any grading occur in a FEMA floodplain, wetland, wetland buffer, Fish and Wildlife habitat conservation area or geologically hazardous area?
 Yes No Will the volume of excavation or fill for the project be over 500 cubic yards?
(Note – if volume is greater than 1000 cubic yards then a SEPA environmental checklist will need to be submitted for review)
 Yes No Will the grading create a base or support for a permanent structure?
 Yes No Will the grading be for a driveway that is longer than 75 feet?
 Yes No Will any grading occur in a drainage channel or be for a water feature (like a pond) with a surface area greater than 500 square feet?
 Yes No Will this grading result in the addition or replacement (excluding pavement maintenance) of 5,000 square feet or more of impervious surfaces or the disturbance of 1 acre or more land or the construction of new drywells or other underground injection control (UIC) facilities?
 Yes No Will any excavations or fills have slopes at 2:1 (H:V) or steeper **and** heights greater than 2 ½ feet?
 Yes No Will any excavations or fills have slopes at 10:1 (H:V) or steeper **and** heights greater than 4 feet?

PART 3 – Regular Grading Permit needed? (SVMC 24.50.040: 1 set of plans showing grading and temporary erosion and sediment control: does not require engineering)

- Yes No Will the volume of excavation or fill be over 50 cubic yards on any one lot?
 Yes No Will any excavations have slopes at 2:1 (H:V) or steeper **or** heights greater than 3 feet?
 Yes No Will any fills have slopes at 2:1 (H:V) or steeper **or** heights greater than 2 feet?

PART 4 –Grubbing and Clearing (G&C) Permit needed? (SVMC 24.50.050; 1 set of plans showing G&C and temporary erosion and sediment control: does not require engineering)

- Yes No Will the G&C work disturb 5,000 or more square feet of area or remove 7 or more trees?
(Note that forest practices overseen by DNR or commercial agriculture are exempt)
 Yes No Will there be any clearing on slopes or near/in FEMA floodplains, wetlands, wetland buffers, Fish and Wildlife habitat conservation areas, geologically hazardous areas or erodible soils?

If the answers to all of the questions above are "No" then a permit is not required for the proposed work.

DISCLAIMER: By accepting this permit and proceeding with the work, the applicant/permittee and owner acknowledges and agrees that: 1) If this permit is for construction of or on a dwelling, the dwelling is/will be served by potable water. 2)

Ownership of this City of Spokane Valley permit inures to the property owner. 3) The applicant/permittee is the property owner or has full permission and authority to represent the property owner in this project and carry out the work specified in the permit. 4) All construction is to be done in full compliance with the City of Spokane Valley Municipal Code. The applicable codes are available for review at the City of Spokane Valley Permit Center. 5) The applicant/permittee further declares that they are either: (A) a contractor currently registered and properly licensed in accordance with Chapter 18.27 RCW; (B) the registered or legal owner or authorized agent of the property for which I am applying for permit and not a licensed contractor; or (C) otherwise exempt from the requirements set forth in RCW 18.27.090 and will abide by all provisions and conditions of the exemption as stated. 6) The City of Spokane Valley permit is a permit to carry out the work as specified therein and is not a permit or approval for any violation of federal, state or local laws, codes or ordinances. 7) Compliance with all federal, state, and local laws shall be the sole responsibility of the applicant/permittee and property owner. 8) Plans or additional information may be required to be submitted and subsequently approved before this application can be processed. The City is not responsible for any code violation through the issuance of this permit. 9) Failure to request and obtain the necessary inspections and inspection approvals may necessitate stoppage of work and/or removal of certain parts of the construction at the applicant's/permittee's or property owner's expense.
