Subject: Development of golf course
Date: Wednesday, November 14, 2018 4:50:08 PM

As residents of Midilome East we are against the development of the golf course bordered by Pines/Madison/Thorpe/Dishman Mica roads. The flood zone being filled will have an adverse impact on wildlife that use the area, and the amount of homes and apartments will definitely impact the schools, roads, and infrastructure of the area. It would be nice if some open areas could remain open and not so built up. Putting a park in a development is not he same as open area "nature".

Thanks,
Kevin and Barbara Smith
