Lori Barlow
Spokane Valley Community Dept

Dear Ms. Barlow,

We built our home 56 years ago and have watched the Dishman-Mica Rd. become a busy, crowded highway. People have watched land values decrease because of poor zoning on land development. The area around the old golf course deserves development that favors the existing neighborhood. Central Valley School District has kept pace with school construction and only this past year built new schools on both main entrances to the property. We have seen the water that extends into the area and question whether more dirt fill will change the landscape forever.

Please consider the people who live in the area, home values, safety, schools, and traffic.

Sincerely,
Jack + Donna Pring
