---

My husband and I do not want the painted hills development. Our roads and water systems are barely adequate for the new developments already built in the last couple of years so why would we add more people to already busy roads? Our water bills are going up to help pay for further development.

The animals, including deer, moose, coyotes, and bald eagles call this area home. We do need to add more stress to these animals as we push them out of their homes.

We already have a lot of developed empty space not utilized in the Valley that should be rebuilding these spaces before building more houses, retail, and rentals out here.

Don't pave paradise for more parking lots.
