Subject: Painted Hills Development
Date: Friday, November 16, 2018 8:30:24 AM

Ms. Barlow,

Please forward this to the appropriate parties.

This email is to express our objection and opposition to the proposed development at the former Painted Hills Golf Course location. The area simply cannot support such a large development. The proposed development will have a serious and negative impact upon the traffic, schools, utilities, etc. The traffic has already seen an increase in the past several years, and the schools are already full, despite recent re-builds and remodels.

Further, this area should not be developed for residential use, as it will suffer from the same environmental issues as the neighboring development to the south of this proposed development. This will further impact the community and the new homeowners who may purchase the homes in this development. The developer should not be allowed to build and sell homes in an area such as this to profit at others' expenses, especially in an area which is within a known floodplain.

Thank you for your time and consideration.

(Ron and) Christine Garrett
Homeowners Midilome East Development
