Subject: Impact of painted hills development on MY family
Date: Friday, November 16, 2018 10:26:32 AM

Hi Lori,

Please take the time to read my wife's email below. We hope you'll take our concerns into Consideration.

Thanks,
Luke Fisher

I have grave concerns about the effects of the proposed drastic changes to the local geography. How will this affect our well? How will this affect our sewer system? How will this affect our flooding? We deal with flooding issues every year. I'm terrified this development will make those worse. And heaven forbid water begins to enter our buildings. Then what? How will this development affect my daughters school? Will it become over crowded? How will this development affect local wildlife? We regularly see moose, deer, hawks and a variety of other creatures who are already running out of green space. How will this affect our roads?

> You can't assure my family that we won't be negatively impacted by this proposal. In fact, I'm sure your office doesn't need me to point out these concerns as you know what's likely to happen if this development is put in. But have you taken the time to think about the impact this will have on MY family? Probably not. Please hear our concerns and put yourself in our shoes.
