10210 E. Sprague Ave.  
Spokane Valley, WA 99206

Attention: Lori Barlow

Dear Ms. Barlow,

My letter is in opposition to the plans that have been submitted for consideration to build hundreds of homes in the Painted Hills area where the old Golf Course was.

I am deeply concerned about the environmental issues this would cause. Flooding, traffic, school attendance and crowding are only a few of the major problems this would cause. One of my greatest fears is that of fire. If that number of homes are built in such a small area, and a fire was to start in the hills, the people living at Cedar Creek and above would **NOT** be able to get to safety due to the high traffic that would be happening just from that vicinity alone.

This proposal is unreasonable and detrimental to our community. I sincerely hope that every aspect of the effect on our community will be seriously considered and the proposal will be halted.

Sincerely,

Carol Gonzales
