(800) 528-3335 NAEGELIUSA.COM FINAL

PAINTED HILLS RESIDENTIAL

PLANNED DEVELOPMENT

EIS SCOPING MEETING

HELD ON MONDAY, SEPTEMBER 25, 2017 6:00 P.M.

CENTERPLACE REGIONAL EVENT CENTER 2426 NORTH DISCOVERY PLACE SPOKANE VALLEY, WASHINGON 99216

FINAL 1 2 PAINTED HILLS RESIDENTIAL 3 PLANNED DEVELOPMENT EIS SCOPING MEETING 4 5 HELD ON 6 MONDAY, SEPTEMBER 25, 2017 6:00 P.M. 7 8 9 MR. HOHMAN: I think everyone's just about 10 settled. I want to introduce myself. I'm John 11 Hohman, deputy city manager of the City of Spokane 12 Valley. I'm also the SEPA responsible individual 13 for overseeing the permitting of this project. 14 Tonight we have an environmental impact 15 statement scoping meeting. What that means, we'll 16 have a further explanation here in a few minutes, 17 but I did want to introduce the individual that will 18 be conducting the meeting tonight, and that's Reid Shockey from Shockey Planning Group. The City has 19 20 decided to retain outside planning expertise for 21 this project. 22 That way we can make sure that we've got 23 all of our bases covered as we move forward. I 24 don't have to explain to you that this project has 25 been very long in the process. We received an (800)528-3335

NAEGELIUSA.COM

DEPOSITION AND TRIAL

Page 2

application in 2015. It's been slowly working its way through the process. We have prepared boards in the back if anybody's interested in finding out where are we, where is this project in the overall scheme of how projects usually go through our code provisions. It's very early on in the process yet. We just recently completed the environmental determination.		Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1	Page 3
<pre>3 the back if anybody's interested in finding out 4 where are we, where is this project in the overall 5 scheme of how projects usually go through our code 6 provisions. 7 We just recently completed the environmental	5	scheme of how projects usually go through our code	
	6	provisions. It's very early on in the process yet.	
8 determination.	7	We just recently completed the environmental	
	8	determination.	

3

9 We did make a determination of 10 significance, which means that this project does 11 need to conduct an environmental impact statement 12 study and go through that process, which we also 13 have a board in the back that talks about the EIS 14 process. So what we'll do tonight is I'll turn it 15 over to Reid.

He will give an overview of what tonight's 16 17 meeting is really about and what we're trying to do is receive input from you, the public, on what the 18 19 EIS should focus on. What are the actual attributes that should be studied in this EIS? 20 So that's what we'll be asking you to provide input on tonight. 21 22 Reid will talk about that some more.

23 We'll turn it over to the project 24 representative, Bryan Walker. He'll have a few 25 minutes to talk about the project. And then the

1 rest of the evening will be just listening to your 2 comments.

What should we focus on? Again, it really is trying to gauge where should this environmental impact report go? What are the areas that need to be focused on? So with that I'll turn it over to Reid and he'll walk you through tonight's meeting.

8 MR. SHOCKEY: Thank you, John. We do have 9 a court reporter that will be taking down all 10 testimony and the meeting is being recorded so that 11 we can make sure that whatever you come up to the 12 microphone to say is on the record so that we can 13 follow up and make sure we've addressed whatever 14 concerns you have expressed regarding the scoping. 15 And with anything official, I've got a statement I 16 want to make. It's about two pages. It won't take 17 long.

18 And then we'll get into your testimony. 19 For the record, this is a public meeting being held 20 on Monday, September 25, 2017, at CenterPlace in 21 Spokane Valley. The purpose of the meeting is to 22 receive comments from the public regarding the scope 23 of an environmental impact statement being prepared 24 for the proposed Painted Hills Planned Residential 25 Development which has city file numbers SUB-215-0001

NAEGELI

	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 5
1	and PRD-2015-0001. The process of determining the
2	content of the EIS is called scoping, and this is a
3	scoping meeting.
4	My name is Reid Shockey and I am a
5	planning consultant from Everett. I have been

6 retained by the city to review the Painted Hills project under the rules established by the 7 Washington Environmental Policy Act, otherwise known 8 I'll be outlining this evening's 9 as SEPA. activities here in a moment. First to comment on who 10 11 I am and what my role is. Because I live 200 miles 12 from here, I have no opinion regarding the Painted Hills proposal in terms of whether it should or 13 14 shouldn't be approved.

15 I have been retained to make sure that the letter and the spirit of SEPA are met and the 16 17 environmental review of the project. Once the scope of the EIS is determined, my job is to make sure 18 19 that these items are studied accurately and 20 circulated to the public for comment. I need to 21 explain exactly what this meeting is about and what 22 it is not about.

The rules governing the preparation of an environmental impact statement can be confusing but they are the rules. Black Realty has applied for a

## NAEGELI

Painted Hills Public Meeting FINAL	September 25, 2017	NDT Assgn # 24721-1	Page 6

permit for a project involving 300 single family 1 homes and 280 multi-family dwellings and a 2 3 neighborhood commercial center. You had the opportunity to see those plans earlier tonight 4 5 before the meeting -- before this meeting convened. 6 The permit is being reviewed under the various codes of the city. As John mentioned, the city has 7 8 determined that an environmental impact statement must be completed analyzing the issues you will find 9 10 on the DS document that was on the table out there 11 and hopefully you have a copy. The purpose of this 12 meeting is to hear what other topics you, the 13 citizen, believe should be analyzed in addition to 14 what you see on the list.

15 We will take your comments under advisement and will then make a final decision on 16 17 You will either see that your topic has scoping. 18 been included for study in the environmental impact 19 statement or you will see why the item was not 20 included. And SEPA has criteria as to what's 21 discussed in the environmental impact statement. 22 While your comments might certainly have meaning to 23 you and others, it may not meet the criteria for 24 discussion in an environmental impact statement. That's one of those confusing rules I was telling 25

For tonight's meeting, it will be helpful 4 5 to the city to hear comments from the public on what additional items should be addressed in the EIS or 6 7 comments related to the items that are already on 8 the list. Everyone is invited and encouraged to 9 speak. If a prior speaker has adequately expressed 10 your opinion regarding issues to be discussed in the 11 EIS, you need not testify.

raising it at future hearings on the permit itself.

3

12 The number of persons asking for something to be discussed, the number of people asking does 13 not affect the decision to include it in the 14 15 environmental impact statement. If you do not wish 16 to speak, feel free to fill out the comment sheets 17 that were out in front and drop it in the comment 18 box before you leave. Again, the box is on the 19 table.

If you have a letter to submit, you may drop it in the comment box or give it to Ms. Barlow and you will be on the record. The deadline for scoping comments is this Friday, the 29th, at 5 o'clock p.m. Any of the methods that I've discussed will get your comments recorded. I have read the

Г	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1	Page 8
1	253 comments submitted by citizens already, and if	
2	you submitted a comment, one of those 253, you're on	
3	the record. Once the draft EIS is issued, there will	
4	be another hearing to hear your comments on the	
5	analysis of the various documents in that document.	
6	And once the final EIS is issued, you will	
7	have the opportunity to speak at a public hearing on	
8	the project itself. Are there any procedural	
9	questions that any has for the purpose of tonight's	
10	meeting? We'll have testimony later on the topics	
11	that you think should be included, but does everyone	
12	sort of understand what we're all doing here	
13	tonight? Okay, thank you. I'm going to introduce	
14	Bryan Walker.	
15	We're in a minute I'm going to tell you	
16	we're going to try to hold you all to two or three	
17	minutes and then we'll hold Mr. Walker to two or	
18	three minutes. If you would like to get up and	
19	mention anything that about the EIS process,	
20	Bryan, are you oh, there he is. And if you would,	
21	and I'm going to ask this of everyone, if you want	
22	to speak, come forward to the mic and give us your	
23	name so that we have that on record.	
24	MR. WALKER: Bryan Walker, 107 South	
25	Howard. And I just want to first of all tell	

,	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 9
1	everybody that I'm facing the wrong direction.
2	First of all, I want to tell everybody thank you for
3	coming because you're the neighbors, you're the
4	citizens, and you're the people that we need to hear
5	from, as well as the city needs to hear from with
6	your concerns. We have a lot of we've spent
7	almost four years now in the planning of this and
8	we're finally at a point to where we believe we can
9	try to move this thing move this thing forward,
10	but we want to be able to give everybody ample
11	enough time to express their opinions and talk about
12	what's concerning them as it relates to this
13	environmental impact statement tonight.
14	Like he said, in the future we're going to
15	have other opportunities to talk about other things

but I set up a little display in the back and I can 16 17 talk about those things with you. I was there earlier and had a lot of people talk but if you want 18 19 to come and see me afterwards and talk a little bit 20 more about the neighborhood, I'll be happy to answer your questions. And I'm going to keep it under two 21 22 minutes.

And I think you did. Okay, I 23 MR. SHOCKEY: do have the sign-in sheets in front of me. And what 24 25 I'm going to do is I'm going to just start right off

> NAEGE (800)528-3335NAEGELIUSA.COM

ī	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 10
1	the top those people who indicated that they would
2	like to speak. And I'm going to mention the name
3	and then I'll mention the two next names. And if
4	those other two folks would like to work their way
5	to the front and just take a seat, then I think
6	it'll move things along quickly. So, and our target
7	tonight is adjournment at 8 o'clock.
8	And I think, looking at the list of
9	speakers I see that indicated they want to speak, I
10	think we're going to be fine in that regard. But we
11	are going to remind you when three minutes is up and
12	ask you to quick conclude your comments and return
13	to your seat so the next person can talk. So to
14	start off I have Marcia Sands, to be followed by
15	Nancy Bauchwitz, to be followed by Pat Munts.
16	MS. BARLOW: M-u-n-t-s, Munts.
17	MR. SHOCKEY: I'm hearing Munts. Thank
18	you very much. Okay. And I need your name. And I
19	already have your number. We need your name. Don't
20	need your address, just your name.
21	MS. SANDS: Marcia Sands. Tonight I'm
22	going to speak just to the SEPA checklist revisions
23	as they address surface and floodwater issues.
24	Revision A-10, city floodplain development permit
25	part 4.8 requires that written notarized approval of
L	DEPOSITION AND TRIAL

	Painted Hills Public Meeting FINAL	September 25, 2017	NDT Assgn # 24721-1	Page 11
1	the property owners for s	said increase	in base flood	
2	elevations be provided.	And 4.9 requi	res a no-rise	
3	certification and documer	itation.		

4 Given that this property is in the 5 compensatory floodplain defined in the Spokane Valley Municipal Plan as an area where development 6 cannot reduce the volume of water stored, these 7 requirements need to take into account all of the 8 9 properties bordering the extended floodplain due to 10 the interconnectivity of surface and groundwater 11 flow in the area. I have some attachments, and I 12 will provide this letter and all of the attachments 13 to Ms. Barlow by email.

The attachment that goes with this is the 14 15 FEMA floodplain map that shows the extended 16 floodplain goes down East 40th Avenue and extends 17 over across Highway 27 and covers the area that's at the base of Belle Terre and the housing division in 18 19 that area. Revision A-11 in part says remove the 20 project area from the compensatory floodplain 21 storage. Based on the definition of compensatory 22 floodplain storage, I'm not sure how it can actually 23 be removed. You can't remove -- there are 24 approximately 60 acres according to the FEMA 25 floodplain maps, a potential flood depth of about a

IAEGELI

ī	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Pag	ge 12
1	foot. And that's 60 acre feet of water. And	
2	because of our pre-spot cycles here that water tends	
3	to all accumulate.	
4	And so talking about it in CFS doesn't	
5	really help. You need to talk about it in volume.	
6	And that volume of water has to go someplace. It's	
7	going to go to the outlying floodplain areas. Those	
8	are all previously developed areas before this FEMA	
9	flood map was initiated. Those properties are going	
10	to be affected. Item No. B3A4. And this again	
11	MR. SHOCKEY: And I need to remind you	
12	your three minutes is up. If you can conclude and	
13	you certainly can submit your written comments as	
14	well.	
15	MS. SANDS: Okay. In conclusion, a	
16	subdivision of this size and magnitude is completely	
17	inappropriate for that property. It's going to	
18	affect all of the properties that are on all of the	
19	interconnected floodplains in the surrounding area.	
20	So I think the city has been wrong in even	
21	considering allowing development in this property	
22	and they need to do a lot more review and address	
23	all of the people that are going to be affected by	
24	it.	
25	MR. SHOCKEY: Okay. Thank you, Ms. Sands.	
I	NAEGELI	

DEPOSITION AND TRIAL

Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 13 I don't know if Pat Munts is 1 SPEAKER: 2 here. 3 MS. MUNTS: I'm here. 4 Oh, you're right there, Pat. SPEAKER: 5 Okay, good. I knew Pat was here. Okay. Nancy Bauchwitz? 6 7 MR. SHOCKEY: And if I may. I apologize. 8 Followed by Pat Munts, followed by Kent Mayer or 9 Mayer. Thank you. 10 MS. BAUCHWITZ: I agree with everything 11 the previous speaker said. I'm not in favor of this 12 development. I -- we lived here 42 years ago on the 13 north side. When we came back nine years ago we 14 ended up in the valley and we loved everything about 15 the view from our deck which is the northwest. The 16 greens, the trees, the hills, the mountains, the big 17 sky. Our view will be now multi-family dwellings 18 and single-family dwellings and maybe a few hills 19 peaking over the top. I do feel that will affect 20 the property value of the homes in my area. If it 21 does go through, I'm worried about the potential 22 increase in traffic, in the impactedness of the 23 schools, in increased crime in such a -- for the 24 density factor of the dwellings that are going to be 25 built. It is, yes, as the previous speaker said,

DEPOSITION AND TRIAL

1 far too many for that area. I would prefer a great 2 park.

3 If we -- other places that I have lived, including Southern California which was the 4 5 development capital of the nation for a long time, 6 when developers are in the planning stages, they do 7 plan into their project to build a new school 8 because of the impact it would have -- because of 9 the plan's impact on the current schools. And after 10 they build the new school, as part of their project, 11 they deed that over to the school district at their 12 expense. So it's a gift, if you will. But also 13 helps with the impacting of the schools. And I think 14 that's all I have to say. Thank you.

MR. SHOCKEY: Thank you very much.
And we have Pat Munts, followed by Kent
Mayer, followed by Randy McNeice.

18 MS. MUNTS: My name is Pat Munts, M-u-n-t-19 I have lived in the very north of Painted Hills s. 20 area for 40 years. My first introduction to that 21 area was to come in with our realtor, up the back 22 way off Dishman Mica and then down over the hill 23 going north on Mohawk because the field was flooded. 24 And it was flooded a full third of this development. 25 Now, that was the mid to late '70s. In the last 40

Г	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 15
1	years I've seen it flood multiple times, including
2	after they tried to clean the creek out and put in
3	the drainpipes under the road. And in some cases in
4	the last seven, eight years, it was flooded for a
5	full three months. Now, I have a background in
6	resource management, wildlife, gardening, and soil.
7	The water table in that area is very high.
8	I have seen holes in the late summer full
9	of water. I have seen wildlife in that area use
10	that creek heavily because it is the only source of
11	water in the region come July, August, and
12	September. I have seen wildlife displaced
13	throughout the development of the Creek at Chester
14	and Alderwood. In fact, we've had deer that have
15	been killed on that road repeatedly. Now, when they
16	put in the Chester Creek development, they actually
17	had to raise the elevation of the lots closest to
18	the creek because they were below the flood line.
19	If this development is going to be
20	considered, the wildlife has to be considered, the
21	plantings that they are using to put in for
22	landscaping need to be wildlife friendly, native
23	focused. And if this is going to be a community
24	area, then the community and I'm talking about
25	everybody outside the gates needs to have access
L	DEPOSITION AND TRIAL

ſ	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1	Page 16
1	to some part of it. This land is an old lakebed. I	
2	have seen great beach sands when we built our house.	
3	As a floodplain issue first of all discussed by Ms.	
4	Sands, this is a floodplain. This is an old lakebed	
5	that will fill with water again. The best thing	
6	that can happen to this property is that maybe half	
7	of it be developed. The rest of it needs to be	
8	taken over by the City of Spokane Valley as a	
9	retention area turned into a city park. Thank you.	
10	MR. SHOCKEY: Thank you very much. Let's	
11	see. Next would be Kent Mayer, followed by Randy	
12	McNeice, followed by Gary Lake. I'm going to	
13	butcher some of these names, and I apologize.	
14	SPEAKER: Does it say Gary Lake and Pamela	
15	Lake, Pam Lake?	
16	MR. SHOCKEY: You know, it does. I	
17	apologize.	
18	Let me real quickly look at our court	
19	reporter. Is everybody doing well?	
20	COURT REPORTER: The slower they speak the	
21	better, but that's quite all right.	
22	MR. SHOCKEY: Okay, that sounds good.	
23	Okay, go ahead, sir.	
24	MR. MAYER: My name is Kent Mayer. I'm a	
25	fishery biologist for a state agency. I can't say	
l	DEPOSITION AND TRIAL	1

	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1	Page 17
1	which one because I'm here on my own. I have a	
2	master's degree in Fisheries and a bachelor's degree	
3	in Forestry. I know a lot of big words like fluvial	
4	geomorphology, hydraulic connectivity, and	
5	anastomosing, so I get it. I've been through the	
6	SEPA process. I've written EISs. I've critiqued	
7	EISs. Most of this what I'm going to say is	
8	addressed to city staff and their environmental	
9	crews. I've been there. Chester Creek came within	
10	inches from flooding at the ridge this year and this	
11	flooding isn't over one day; it's over a period of	
12	weeks. Houses flooded. I see a lot of nice	
13	pictures here. I don't see a single house but I see	
14	a hell of a lot of pavement.	
15	From my perspective as a fish biologist,	
16	pavement and salmon are not compatible. Now, we're	
17	not talking about salmon but there's going to be no	
18	less water with pavement. And if they think they	

18 less water with pavement. And if they think they 19 can capture floodwaters, they're crazy. You simply 20 have too much CFS going here. We've already heard 21 about acre feet. You're talking about Chester Creek 22 flowing at that high rate for potentially months on 23 end like it did this year, so the amount of water to 24 be captured is millions of gallons. Where is it 25 going to go? How fast is it going to flow? And

1	what about what's downstream of that? When you put
	what about what 5 downbeream of that. When you put
2	something in a dyke or a levee, why don't you ask
3	New Orleans and Houston how that worked out for
4	them? So my environment what I know being a
5	professional biologist is environmental concerns
6	generally don't slow down a project a whole lot.
7	Traffic concerns do, and here's the
8	relatedness. When I went to a Traffic meeting, they
9	said our traffic ratings in this area are about As
10	and Bs. But after this there's going to be Cs and
11	Ds. So I'd like to ask, how would you feel if your
12	kids brought home As and Bs the first couple years
13	of high school and come back and bring back Cs and
14	Ds? Are we simply just going to dumb this down, our
15	environment and our traffic, and just the quality
16	goes out the window from excellent to good down to
17	average or below average.
18	Water is a tricky business. It kills
19	people. I've worked in streams flowing at 3,000
20	CFS. I had to wade in them to do my projects. It's
21	not fun, and it flows 24/7. You're asleep and it's
22	flowing. You wake up and it's flowing. On weekends
23	when you're off work it's flowing. It's always
24	flowing. As I said, pavement and water storage and

25 retention are not compatible. So I'm asking city

1 staff: How do we hold a standard up that protects 2 people, the environment and their homes and their 3 kids? Having a raging river and a toxic bank worse 4 is going to be worse. And the last thing I'll say 5 is, Mother Nature bats last and we can't get out of 6 it.

7 MR. MCNEICE: My name is Randy McNeice. Ι 8 have lived in the valley all of my life. I attended 9 Bowdish Junior High and University High School. I'd 10 like to say that I'm not anti-development but I am 11 100 percent anti this development. It is totally 12 inappropriate. I'd like to address an issue that I 13 don't know if anybody else will. I have a letter 14 here addressed to Ms. Lori Barlow and it's from 15 DAHP, and that is the Department of Archaeology and 16 Historic Preservation for the State of Washington. 17 I'd like to quote a couple of lines out of this 18 letter. "Our professional opinion is that the 19 project area has a high probability to contain 20 archaeological resources. The project area is 21 depicted as having the highest probability for 22 containing pre-contact archaeological resources." 23 I'd now like to reflect back to my days in 24 junior high school when that area was an old farm 25 and myself and a number of my friends would often

NAEGELI

Painted Hills Public Meeting FINAL	September 25, 2017	NDT Assan # 24721-1	Page 20

frequent that farm to shoot gophers. In that 1 endeavor, we noticed a multitude of times that in 2 the fresh dirt around the gopher holes were plates 3 of agate, jasper, and obsidian. And I think for 4 5 anybody that understands what that is, it's absolute 6 proof that Native Americans used that site and used it for construction of stone tools. And I would 7 8 encourage the City of the Valley absolutely require an extensive cultural resource study of the golf 9 10 course site.

11 Now, that site has been disturbed by a lot 12 of dirt being hauled in there for the construction of the golf course, by farming, but I will bet you 13 14 that if they do an extensive amount of work on that 15 property, the deeper levels, you're going to find 16 that history that's been there for hundreds of 17 years, and I encourage the City of the Valley to 18 include that in their requirements. Thank you. 19 MR. SHOCKEY: Okay. Next, with apologies,

20 we have Pam Lake's group.

21

SPEAKER: That's right.

MS. LAKE: Thank you. My name is Pam Lake, L-a-k-e. My address is 11912 East 40th. I'm speaking as a citizen of Spokane Valley and a neighbor of what was previously the golf course. The

ī	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 21
1	housing that is proposed will be much more densely
2	populated than what is in the surrounding area.
3	This will increase the traffic on ill-equipped
4	streets and the schools. It will also increase the
5	crime in our area and affect our property value.
6	Thank you for listening.
7	MR. SHOCKEY: Thank you. Now, we do have
8	next Jill and/or Frank Cobb. After then, John and
9	Kathy Sisser. After them John and it looks like
10	Lorri Clarizio. Good evening.
11	MR. COBB: My name is Frank Cobb. My wife
12	and I live right on the old number five green, right
13	on the old golf course. I want to talk about the
14	floodplain engineering. The developer has designed a
15	very complex system. It's designed to handle the
16	spring runoff and all this floodwater we're talking
17	about. It's a system of catch basins, pipes,
18	drywells, weirs, and it's complex. And it's going
19	to have to be maintained and at times repaired.
20	And the developer has proposed I've
21	read the engineering on this and the comments, and
22	the developer has proposed that a future homeowner's
23	association for this community, if it's built out,
24	will be responsible for the maintenance and
25	operation of this floodplain mitigation system.
	DEPOSITION AND TRIAL

1 I think this is totally, totally unreasonable, because most homeowners' associations just plain 2 3 don't work. It wouldn't surprise me that we're 4 going to see a weather event at some point in the 5 future that could overwhelm a system like this and 6 it makes no sense for the city to approve it. 7 So my question to the city is, do you find 8 this proposal acceptable? I think we need an answer 9 to that because I don't think it is. Thank you. 10 MR. SHOCKEY: Next is the Sissers. 11 MR. SISSER: My name is John Sisser, S-i-12 s-s-e-r. I have spent 10 years in Southern 13 California living in probably the fastest growing 14 community in the country at that time. I sat on a commission that every developer had to go through to 15 16 submit its plans for parks, recreation, and schools. 17 I sat there and asked questions. They had to make the changes and they had to pay for the changes and 18 19 dedicate all that land to the city or to the school 20 district. So we worked together, the three of us, 21 the school district, the city, and the developer, to 22 come up with an equal plan. This is not happening 23 here. Another thing I want to address is the water 24 that's going to be generated that's going to come on 25 that property has to stay on that property. Ιt

> EGELI ITION AND TRIAL

Г	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1	Page 23
1	cannot be taken off some other way and got to a	
2	different spot that we don't know about yet that	
3	somebody probably has got a thought in their head of	
4	how they're going to do that. That's all I've got	
5	to say.	
6	MR. SHOCKEY: Thank you. And let's see.	
7	Next we have John and I think Lorri Clarizio?	
8	MR. CLARIZIO: Clarizio.	
9	MR. SHOCKEY: Oh, thank you.	
10	MR. CLARIZIO: My name is John Clarizio,	
11	C-l-a-r-i-z-i-o. After reviewing the conditional	
12	use permit, CUE-26-85, many points stand out as to	
13	why all 15 agencies agree to the only use for the 75	
14	acres is a golf course. Here are some of the	
15	points. The County Engineer's office granted a	
16	development permit under the Floodplain Management	
17	Program and under the National Insurance Program.	
18	The permit will be issued under the condition that	
19	there will be no adverse onsite and offsite impacts	
20	due to any excavation regarding any excavation	
21	rearranging of the landscape. Fill can only be used	
22	from within the site. It was estimated by the	
23	applicant that 150,000 cubic yards, revised down to	
24	30,000 cubic yards of soil material will be	
25	rearranged to accomplish the golf course design.	
L		

Γ

1	The clubhouse and driving range will be
2	built on the same site as the existing farmhouse.
3	The 100-year floodplain for Chester Creek is
4	included in most of this site. The challenge will
5	be to see excuse me, the challenge will be to see
6	that any alteration of the terrain on the site does
7	not adversely affect upstream or downstream
8	properties contained in the floodplain area. The
9	site has been designated as a critical materials use
10	activity under the aquifers sensitivity area overlay
11	zone and there shall be requirements to construct
12	the proper place for the storage and handling of
13	critical materials. The conditional use permit is
14	granted in perpetuity. The golf course will be
15	located in a designated flood hazard zone.
16	Documents on the file state that the 75
17	acres is a floodplain, floodway, as well as
18	wetlands. The soil is clay, silt, loam. Paved
19	driveways are prohibited in a 100-year flood zone.
20	No more than five percent of a 100-year flood zone
21	area shall be covered by impervious surfaces or
22	fill. Information from the United States Bank
23	Servicing court case, Case No. 12-036113-PCW11
24	concerning Painted Hills says two-thirds of the site
25	within the floodplain zone is two-thirds of the
-	

Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 25 site within the flood zone is 61 acres. One-third 1 of the site is outside the flood zone and it's 30 2 3 The total unusable area is 61.03 acres and acres. 4 the market value of the property is \$930,000. Thank 5 you. 6 MR. SHOCKEY: Thank you. Next I have 7 Velvet Bachman. 8 MS. BACHMAN: My name is Velvet Bachman, 9 V-e-l-v-e-t, and my last name is B-a-c-h-m-a-n. I'm 10 here to represent myself, my family, and neighbors 11 like me. We moved to that area about six years ago. 12 It took us about six months to find a home and we 13 decided on that place because it overlooked the 14 mountain and the golf course. It had a beautiful 15 view. Right now we're concerned about not only our 16 view going away but the square footage of our 17 property if we lose our basement because of flood 18 issues in the future. We're also concerned about the 19 school. 20 We have two children that are three and 21 five years old, and what that's going to do to the 22 schools because we know in the past that schools had 23 been full, and even though we live two blocks away 24 from there we may not be able to -- our kids may not

25 be able to attend that school. We're also concerned

Г	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 26
1	about the traffic. Right now we take our children
2	to daycare and there's a lot of traffic in that
3	area. We're concerned about the property value and
4	how that might affect our home. And those are
5	issues that when we purchased the home were not
6	there and we hope that you consider them. Thank
7	you.
8	MR. SHOCKEY: Thank you.
9	MR. SHOCKEY: Okay. Next, I have Sylvia
10	Passe or Passe, followed by Charlie McGuire,
11	followed by Rose Coalson. Good evening.
12	MS. PASSE: Good evening. My name is
13	Sylvia Passe. I've lived in the Ponderosa now for
14	10 years just down from the golf course. When we
15	heard about all of this development that was
16	proposed we were quite upset because it truthfully
17	seemed like money talks. Money, if you have the
18	money, you can get the floodplain designation
19	changed, and that's exactly what's happening here.
20	Besides all the flooding it was tremendous
21	flooding this last spring. And with ice dams and
22	flooding in people's homes. The traffic that's
23	going to be increased on these roads is going to be
24	horrendous. We've been to the traffic study
25	meetings, which basically the people that went to
L	DEPOSITION AND TRIAL

г	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 27
1	the meetings were just blown off.
2	This should not be happening in our city.
3	We bought out there because it's large. The lots
4	are large. It's more of a country feel. I don't
5	know all the big words like the previous folks, but
6	this is just wrong. Our schools are already
7	overcrowded. The crime is getting worse and you
8	bring in such a dense amount of homes, it's going
9	it's just going to multiply. We don't have enough
10	deputies or police in this county and in this city
11	as it is. And what's going to happen to the
12	surrounding neighborhoods? We're all at risk.
13	Thank you.
14	MR. SHOCKEY: Thank you.
15	MR. SHOCKEY: Charlie McGuire, Rose
16	Coalson, followed by Sandy Pavelich.
17	MR. MCGUIRE: Hi, my name is Charlie
18	McGuire. An environmental impact study needs to
19	consider the effects of the aquifer below this
20	property. And there is a water well in this area.
21	And presently, the old golf course has turned into a
22	giant weed patch, and the heavy rains have produced
23	weeds that are waist high. The billions of seeds
24	from these seeds are viable for 20 years. Most
25	homeowners use Roundup to kill weeds. If 500 homes
L	DEPOSITION AND TRIAL

	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1	Page 28
1	use a gallon of Roundup a year, that will add up to	
2	10,000 gallons of Roundup in the next 20 years to	
3	kill these seeds.	

In addition, many neighbors in this area 4 5 spray for spiders. These are big, ugly, one-inch long spiders. My neighbor has his property sprayed 6 7 three times a year to kill these spiders. Any new 8 homes will have the same spiders and want to spray These thousands of gallons of herbicides and 9 them. 10 pesticides will affect our health. There's a clear 11 link between Parkinson's disease and exposure to these chemicals. 12

After 20 years of new spraying, we could 13 14 say we killed all the weeds and spiders, but the 15 water is not safe to drink. I propose a low impact change to this property that has a low population 16 17 density. The Fairchild Air Base poisoned their 18 aquifer with fire-retardant foam. This week, many 19 millions of dollars were added to clean up their 20 poisoned water. We should learn from their 21 mistakes. Thank you. 22 MR. SHOCKEY: And after Rose Coalson we'll

22 MR. SHOCKEY: And after Rose Coalson we'll 23 have Sandy Pavelich and Dan Pavelich.

24MS. COALSON: My name is Rose Coalson.25The last name is spelled C-o-a-l-s-o-n. I'm a

(800)528-3335 NAEGELIUSA.COM

ī	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 29
1	resident of Painted Hills since January '79, and I
2	experienced the firestorm in October of 1991. We
3	were told in the afternoon to evacuate, whereupon we
4	loaded up our car with two kids, our pets, and some
5	belongings. We left on Free Drive headed north on
6	Madison, along with many other neighbors. Many
7	cars, even boats, with belongings and people were
8	leaving the area. We have two exits to leave that
9	neighborhood, basically. This is Mohawk to Dishman
10	Mica and Mohawk to Madison. It's 2017 now.
11	There are more homes that have been built
12	in Painted Hills, plus we have the two communities
13	along Madison, the Creek at Chester and the
14	Alderwood Estates area. And I notice from the map
15	back there that they are looking at putting four
16	more exits into Madison. That means at present more
17	people right now before this is built to evacuate in
18	case of an emergency. So adding another 500-plus
19	homes to the area along Madison and Thorpe would
20	further slow down the evacuation process in case of
21	a fire emergency. And after such a fire in Painted
22	Hills, rain would follow, which means more flooding
23	events in the area. It's not a matter of if there's
24	going to be a fire, it's when. Thank you.
25	MRS. PAVELICH: My name is Sandy Pavelich,
L	DEPOSITION AND TRIAL

Г	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1	Page 30
1	P-a-v-e-l-i-c-h, and I would like to talk about the	
2	wildlife corridors. Our state has been working to	
3	make sure these areas remain open for wildlife.	
4	Everyone knows we have pictures of eagles, moose,	
5	elk, cougars, and many more species that are in this	
6	area. We need this area left open with a source of	
7	water for our wildlife. The 10-acre park area will	
8	not meet these needs. In the Black proposal, there	
9	will be fencing in these areas. In the	
10	recommendation from the Washington Department of	
11	Fish and Wildlife it states, and I am quoting,	
12	"There will be little value of a wildlife corridor	
13	for elk due to the surrounding development. It is	
14	highly unlikely that these animals will move through	
15	this area anymore." And that is from Karin Divins.	
16	I also would like to mention in the	
17	Whipple Report for the Black development, their	
18	biology, soil, and water expert, Larry Dawes, has	
19	written a memo to Henry Allen that states, and this	
20	is a quote, "After reading Clomer's (phonetic)	
21	stuff, it was only then that I learned about mounds	
22	and steel plates along the creek base. I hadn't	
23	included any mitigation for those impacts in the	
24	biological evaluation. I need detailed engineering	
25	drawings showing how and where the structures will	
L		

ſ	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 31
1	be built. I will treat this as a temporary impact
2	with no net loss of buffer."
3	So you can see that this development will
4	completely change the quality of life in the
5	community that we live in. And this is the area
6	that we have chosen to live with open space and for
7	the animals that cross this area. Thank you.
8	MR. SHOCKEY: As Dan makes his way to the
9	microphone, next would be Art Fried, Candace Gropp,
10	and Todd Gropp.
11	MR. PAVELICH: My name is Pavelich. I'm
12	her husband. You have the spelling of my name. So
13	I'm going to have to go quickly. Three minutes is a
14	short period of time to address the scoping that we
15	have in front of us today. The scope needs to
16	include not only the impact on our natural
17	environment but also the impact on our human
18	environment. I think that definition is totally
19	understood by the city. With approximately 6,000 car
20	trips a day, the scope should include detailed time
21	data for infrastructure improvements, including the
22	projected present value cost for the responsible
23	parties. The scope needs to address fire
24	evacuation. The scope should include projected
25	school enrollments over the duration of the
l	DEPOSITION AND TRIAL

Г	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 F	Page 32
1	evolvement to completion, projected capacity,	
2	restraints, and the mitigation thereof, including	
3	the financing. The schools are already exceeding	
4	capacity. I'll read the following from Central	
5	Valley School District in response to	
6	MR. SHOCKEY: Excuse me. You've got a lot	
7	of stuff there and I know that you've been on the	
8	record with a lot of information. You might be	
9	going a little too fast. I'm going to give you four	
10	minutes.	
11	MR. PAVELICH: Can you give me more than	
12	three minutes?	
13	MR. SHOCKEY: How's that? So	
14	MR. PAVELICH: Do you have what I have so	
15	far? I don't want to repeat it because I only have	
16	three minutes and I'm taking up my time now. So,	
17	are you okay? Great. I'll slow down then. So let	
18	me read from the Central Valley response on SEPA:	
19	Thank you for the opportunity to have	
20	impact regarding this development. The district	
21	believes it is important that everyone understand	
22	that even the adjusted capacity due to new	
23	construction, that students within this area will	
24	likely not attend the schools within this boundary	
25	area. Depending on buildout, capacity will be	
	DEPOSITION AND TRIAL	

ī	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 33
1	limited and the students in this new development
2	will likely attend a school other than Chester
3	Elementary. And they signed it, "Thank you."
4	The property sits on a FEMA 100-year
5	floodplain. It has vastly exceeded this flooding
6	frequency. In addition, it is a compensatory water
7	storage area which has been spoken about before.
8	The scope needs to address this impact. The
9	developer is proposing that an HOA become
10	financially and administratively excuse me,
11	administratively responsible for the operation and
12	maintenance of the flood control facilities. The
13	scope needs to include who will bear the enhanced
14	responsibility when a proposed HOA becomes defunct,
15	and there are comments within written material from
16	the city that we have obtained that they questioned
17	the same issue.
18	I have forwarded it on to counsel for the
19	city the Phillips versus King County case, very
20	appropriate. Determine if the applicant is the legal
21	owner of the property. Many statements of ownership
22	are being made in public that are conflicting to
23	that stated in the application. Determine that the
24	applicant owns all the property that is included in
25	the proliminant plate representing the enertherity in

25 the preliminary plats representing the apartments in

1 the proposed location.

Determine that the developer can achieve 2 3 the right to unobstructed views to the triangle 4 pond, also known as a barrow pit, including ingress/ 5 egress, reflect controlled infrastructure. The 6 city's National Floodplain Insurance Program is 7 being put to risk when the system fails. The city 8 needs to address the resulting impact when this 9 occurs.

10 In an email dated November 18, 2015, Scott 11 McKinney, Washington State Department of Ecology, to 12 one of the city staff members, whose name has already been mentioned, involved in this proposed 13 14 development, Mr. McKinney states: First, building 15 levees is not something we encourage communities to 16 In fact, we discourage them. The scope needs do. 17 to address and reconcile the state's view versus the view of the developer and so on. Wetlands have been 18 19 identified by the state.

A wetlands expert does not weigh sufficient mitigation by the developer. This needs to be addressed in the scope. I'm the president of Painted Hills Preservation Association which strongly opposes the plan as designed and presented to the city. We'll be sending a letter on our

> AEGELI SITION AND TRIAL

Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 35 1 behalf. Included in the letter of transmittal or 2 the letter will be alternate plans that one of our 3 urban planners -- our urban planner has put 4 together.

5 That concludes my comments. Thank you. 6 MR. SHOCKEY: Okay. Thank you very much. 7 And we have Art Fried, followed by Candace 8 Gropp, followed by Todd Gropp, followed by somebody 9 whose last name is May. And I don't know if I can 10 make out this first name. We'll get to that. Go 11 ahead.

12 MR. FRIED: Hi, my name is Art Fried. Ι just want to tell you, from talking to the city 13 14 council, how intelligent the people are that are out 15 there that took the time to study this for you. And 16 I mean in a big way they are concerned. And if I 17 was on this council for the city, I would sincerely look over it carefully. It's nothing you want to 18 19 make a mistake on because it's going to cost 20 everybody in the long run. The city, I understand, 21 I'm quoting for a fact, had the opportunity to 22 purchase this as a nice little golf course, turn it 23 into a beautiful city park which we don't really 24 have one. You know, maybe you ought to look at 25 this, folks. This was fine. Everything was fine,

NAEGELI

	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page	ge 36
1	but you went in what direction? You want to go now	
2	and develop it with all these different homes and	
3	traffic. I live out beyond there and I'm going to	
4	have to deal with this traffic.	

5 The way I see it, you'll probably have to make a four-lane highway going both directions to 6 7 get the traffic in and out of there. And why should we have to live with that when it shouldn't be done 8 in the first place. It should have been left as a 9 10 golf course, which you first agreed upon. You 11 should have bought it. That's about all I really 12 need to say. You have a lot of intelligent people 13 They all knew in the city hall. here.

14 Please, by all means, take note of what 15 these fine folks brought to your attention. We aren't sitting here taking our time, our evenings, 16 17 just to waste our, you know, hear ourselves talk. This is serious business. Okay? And I appreciate 18 19 the opportunity and I hope you take to heart all the 20 things they all said. Thank you.

MR. SHOCKEY: Candace Gropp?
MS. GROPP: Hi, Candace Gropp. I just
want to reiterate what Dan said a little bit about
the schools. The schools within the boundary are
over capacity as it is and the district commented

ī	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 37
1	students in the area will not likely attend the
2	schools within the boundary area. Just a question
3	for the city, at what point will the city make a
4	decision based on the additional adverse effects of
5	the overcrowding and less desirable school
6	environment on our students, families, and school
7	personnel imposed by this potential development?
8	The school district, students, and families are left
9	to deal with these adverse effects of a development
10	that is detrimental on every level and should be
11	part of the EIS. Thank you.
12	MR. SHOCKEY: And Todd Gropp?
13	MR. GROPP: Thank you. My name is Todd
14	Gropp. I live directly east of the on Madison
15	Road east of the golf course. I oppose the density
16	of the project and its negative effect on traffic,
17	schools, safety, wildlife, and the general feel of
18	the area, let alone the flooding that migrates east
19	of the golf course onto my property, my wife and I's
20	property.
21	While all of the previously mentioned
22	issues are important, I feel water quality is one of
23	the most important. Several people have talked
24	about the flooding, but I'd like to confirm that the
25	city would not only look into the stormwater and
I	DEPOSITION AND TRIAL

i	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 38
1	flooding issues but also look into the safeguarding
2	of the water. Chester Creek originates at a Super
3	Fund dumpsite south of the building site in Mica.
4	I would hope that the city would confirm
5	that the water is free of any dangerous contaminants
6	before it allows a developer to inject this water
7	into an aquifer that serves over 400 to 500,000
8	people. As it currently works, the golf course
9	works as a natural filter to help purify the water
10	before it reaches the aquifer.
11	I hope this natural filter is respected
12	and the people that rely on this water are
13	protected. Thank you.
14	MR. SHOCKEY: Thank you.
15	Now, again, with apologies, your last name
16	is May.
17	MS. MAY: I think everything is being well
18	said.
19	MR. SHOCKEY: Okay.
20	MS. MAY: So I'm take my name out.
21	MR. SHOCKEY: All right. Thank you very
22	much. Now, they put the clock behind me so I got to
23	turn around here. Actually, we've been through the
24	list of those who said they wanted to speak. Now,
25	would anybody like to come forward with any
I	DEPOSITION AND TRIAL

Г	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 39
1	additional comments? And let me reiterate, if a
2	comment has been said once it's on the record, so
3	not to repeat what somebody else has said but
4	something new. Ms is it Pat Munt?
5	MS. MUNTS: Munts.
6	MR. SHOCKEY: Munts. Pat Munts again.
7	MS. MUNTS: One thing that has not been
8	mentioned is that one of the reasons we have
9	flooding in that area is that Chester Creek tends to
10	fill up with grass, trees, and the like and then not
11	get cleaned out. And then it starts flooding and
12	backing up into that area. Unless this development
13	also puts in some kind of mechanism for maintaining
14	that creek, the water is going to get worse the
15	longer the creek is ignored and not cleaned up.
16	Thank you.
17	MR. SHOCKEY: I saw a hand back here.
18	Yes, sir? And your name for the record, please?
19	MR. KABBEN: Jim Kabben, K-a-b-b-e-n. A
20	lot of comments about the traffic and so on, but one
21	thing I want to mention is that as you drive east
22	or west on Thorpe Road, you come to Dishman Mica,
23	and I notice there's a lot of children that cross
24	over the railroad tracks, go to the school over
25	here, and the traffic is already busy enough.
L	NAFGFII ₩ (800)528-3335

Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 40 There's no crossing guards, nothing like that, and I 1 2 believe this is a very dangerous area in itself 3 right now, let alone what would happen if this 4 development proceeds. Thank you. 5 MR. SHOCKEY: I see another hand right 6 here. 7 MR. MCNEICE: I've already spoken and my 8 name is Randy McNeice. I have a question I'd like to 9 address to the mayor of the city and to the city 10 council. Instead of representing one developer that 11 does not live in this area, why don't I challenge 12 them to partner with the people that are opposing 13 this development, to regain control of that property 14 and make a significant effort to create a park and 15 recreation facility that represents the people of 16 this district instead of representing one developer? 17 Thank you. 18 MR. SHOCKEY: Okay. I'm looking for any 19 new hands at all. Okay. Right there. 20 MS. PAVELICH: Okay. I've already said 21 something but I would like to mention the critical -22 23 MR. SHOCKEY: Could you identify yourself? 24 MS. PAVELICH: Sandy Pavelich. The 25 critical aquifer area. I have in some of my (800)528-3335

DEPOSITION AND TRIAL

1	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 41
1	information that I have received from the City of
2	the Valley that is in a grant that they applied for
3	that says drywells will affect the water that goes
4	into the aquifer. And this proposal is planning on
5	lots of drywells by the convent, so I think that
6	really needs to be looked into. Thank you.
7	MR. SHOCKEY: Thank you.
8	Okay. Anyone else? We're not going to
9	actually get out of here an hour early, are we?
10	Well, I think now, I do know that oh, I'm
11	sorry. Oh, that's my left-hand vision. Sorry.
12	MR. GIANNINI: My name is Lon Giannini.
13	And I just have some concerns about the whole
14	development. I don't think there's going to be any
15	way to solve the flooding issue. I just don't see
16	that happening. The water has to go somewhere, and
17	with that size of a development I just don't think
18	it's going to be solved effectively. With 500 plus
19	homes or dwellings, you're going to have 750 plus
20	cars added to that area. Right? Those roads are
21	not going to be able to handle that capacity, that
22	increase for one way. You know, it's a two-lane
23	street. Same with South Pines. You have the
24	school.
25	You have morning school traffic every
I	DEPOSITION AND TRIAL

	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 42
1	morning that's inundated with cars and kids walking
2	to school, crossing the streets. It's going to
3	increase hazards and safety to kids. That's a huge
4	increase of activity. The crime, a lot of things
5	people have stated. The crime is going to increase.
6	I've seen in my neighborhood an increase of crime.
7	With that kind of increase of dwellings it's going
8	to just escalate.
9	I understand, okay, you know, it looks

10 pretty nice on the map there. Assuming you could solve all of these flooding issues, right, you have 11 The Reserve, which is a larger lot, little section. 12 13 That's nice. Then you have The Meadows. Really 14 compact in there like sardines. And then you have 15 the other section where I don't really understand it 16 but it's own/rental, and then you have the 17 Apartments.

18 So, okay, you have a nice Reserve. Okay, 19 that may not impact the rest of the homes and the 20 values. But then you put apartments right next to That's going to devalue everything. Then you 21 it. 22 put in The Meadows, okay, middle of the road. But 23 then you put in a rental section right in there and 24 that's the devalue. Rental does not increase value. 25 Rentals is going to devalue our property.

NAEGELI

Γ

1	So, I mean, my question to the council,			
2	what's your motivation here? I don't understand.			
3	We have all these safety concerns, complete impact			
4	to the environment, complete impact to the roads			
5	that cannot handle the capacity, increased safety			
6	for our children. The schools, the classes are			
7	going to increase in size. What's your motivation?			
8	Property taxes? I don't understand. Don't get it.			
9	What could be such a driving factor for			
10	you to say, oh, this is an awesome idea? This is a			
11	plus for everybody. I don't see any pluses yet			
12	except for the people who don't know what they're			
13	buying when they come into the development until			
14	it's said and done and then they find all the issues			
15	after the fact.			
16	They're not going to understand what the			
17	capacity of the car traffic and everything and how			
18	it's impacting everybody around. They will once			
19	they get into the house. What's your motivation			
20	here? How is this a plus for the city, for the			
21	neighbors, for the neighborhood, for the valley? I			
22	don't understand.			
23	MR. SHOCKEY: Okay.			
24	MR. GIANNINI: Thank you.			
25	MR. SHOCKEY: Thank you. Excuse me, could			
L	DEPOSITION AND TRIAL			

Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 44 -- could you spell your name for the record? 1 2 MR. GIANNINI: Sure. First name is Lon, 3 Last name G-i-a-n-n-i-n-i. L-o-n. 4 MR. SHOCKEY: Thank you very much. Okay. 5 Another hand up. Now, I do want to remind people 6 this is a meeting on the scoping of an EIS at a 7 public hearing on the permit that will be later so 8 go right ahead. 9 MS. NEVERS: My name is Chante Nevers, 10 just like Never with an S at the end. My name is on 11 the list. I know that I have sent in numerous 12 letters and I've been on the list for a number of 13 times. I'm sorry I did not come prepared to speak 14 at this so I will make this very short and I will 15 follow up with a letter and an email to Lori as you 16 guys have expressed, by Friday. But one of the 17 things that we really -- I don't think has been 18 looked into is the neighborhoods. I live in 19 Midilome East, which everybody cuts through, and I 20 guarantee you that will become only even more of a 21 problem with four entranceways and exit ways onto 22 Madison. That is the primary way many, many of the 23 kids and parents use Midilome East to get to 24 Chester, to get to Horizon Middle School. 25 I expressed that through Sean Messner, who (800)528-3335

DEPOSITION AND TRIAL

is no longer with the city. We have talked on 1 2 multiple occasions. I've even been commented on with 3 the Whipple when he was consulted through, and 4 basically what it was told was our neighborhood was 5 That according to their count that we're no issue. okay to have all of these extra cars going through 6 7 our neighborhood. That we're just making news to 8 make news.

9 And to me that means that the city is not 10 addressing the citizens that live within our 11 streets. And so all I'm asking is that you listen to 12 us one more time and consider our children, our 13 animals, the people who live on our streets, that 14 this will impact us to a great degree and that we 15 need to be heard so that nobody, no pedestrian is hurt because of all this traffic. 16

So thank you very much for your timetonight.

MR. SHOCKEY: Thank you.

DEPOSITION AND TRIAL

19

20 MR. MCGUIRE: I'm Charlie McGuire. This 21 property lies between two foothills. It's flat. 22 And every morning and every evening, deer families 23 egress across this property, and they've been doing 24 -- my property is above them so I see them every 25 morning. I see them every evening. The deer

(800)528-3335

г	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page	ge 46
1	families go across. And so they may have been doing	
2	this for thousands of years. Now, I have not seen	
3	any easement on the development plans, and so I hope	
4	that if this goes through there will be a way for	
5	the deer to cross safely and not have to go on the	
6	city streets. Thank you.	
7	MR. SHOCKEY: Anyone else?	
8	MS. MCNEICE: My name is Janet McNeice.	
9	I'd just like to make a point of clarification. My	
10	understanding is, and I do not have the details in	
11	front of me, but when they did the car and road	
12	usage count, our understanding being reported to us	
13	is that the count was taken on a holiday, not while	
14	the kids were in school, not while parents were	
15	running their children to and from school. It was	
16	done on a holiday when some people are not even	
17	going to work. Obviously, that's going to alter the	
18	count. And it could be corrected but that's what's	
19	been reported to us.	
20	MR. SHOCKEY: Okay. Looking for	
21	additional hands. And what I was going to ask again	
22	here in a second, when we adjourn, I think those	
23	boards will stay up for a while and that open house	
24	that started at 5:30 can probably continue for a	
25	little while longer. I think they're trying to get	
L	DEPOSITION AND TRIAL	

Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 47 1 folks out of the building by 8 o'clock or so. But having said that, any other comments? 2 3 MR. FRIED: I just one more comment. 4 MR. SHOCKEY: Yeah, well, say it at the 5 mic. 6 MR. FRIED: My voice is loud enough, it 7 don't need a mic. 8 MR. SHOCKEY: Well --9 MR. FRIED: But anyhow, I'm back again. I 10 just want to say I sincerely want the city folks 11 that are, you know, on our council, I voted for you 12 to start the city. I was all behind it. And, you 13 know, you went out and you built a brand new city 14 hall. You had a perfectly good building. Okay, you 15 done that. That's to improve the city. But why 16 didn't you just think of this? You could have 17 purchased this property for a song, kept the golf 18 course going. 19 It hasn't been a park, but was a golf 20 All this wouldn't be a part of it. And it course. 21 was told to you very clearly that would be a great 22 thing for the city to do. Look at over here at the 23 Valley down here. 24 They've got a little golf course up and 25 that city is going wild. Okay? They've got a city

DEPOSITION AND TRIAL

(800)528-3335

ī	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1 Page 48
1	park. They've got a golf course. Why should we be
2	any different? And it wouldn't have had no the
3	impact. Everything would stay the same. A little
4	more cars coming to the park, people enjoying
5	themselves. I'll tell you folks, that's where you
6	ought to go. Just pay this man his money back.
7	Turn it back into something like a city park and
8	everybody could be dancing. And we'd all vote for
9	whoever likes to dance with me. Okay?
10	MR. SHOCKEY: You heard it here first,
11	folks.
12	And if your taxes go up, you've got
13	(inaudible).
14	MR. FRIED: At least it's going for a good
15	cause.
16	MR. SHOCKEY: Yeah.
17	MR. FRIED: Okay. It's not lining
18	somebody's pocket.
19	MR. SHOCKEY: We are going to conclude.
20	And I just want to say that I truly appreciate the
21	civility and the well-structured arguments that I
22	heard tonight. Now, you may not say that to me when
23	you see the EIS that we write, but hopefully you
24	will. But it's been very enjoyable to hear you all
25	tonight. Stay tuned. I'm not sure of the exact
I	DEPOSITION AND TRIAL

ī	Painted Hills Public Meeting FINAL September 25, 2017 NDT Assgn # 24721-1	Page 49			
1	date but probably within a couple of weeks anyway,				
2	you're going to see a final scoping document. So				
3	you will see what's going to end up in the EIS.				
4	And we don't have estimates on the EIS				
5	itself but it will be issued for public comment.				
6	But if you're on the record you are going to be				
7	notified when that hits the streets. So with that,				
8	I'm not sure if there are any comments here. By all				
9	means, go back and look at those and talk to people				
10	and talk to each other and we will see you the next				
11	time we meet here.				
12	(WHEREUPON, at 7:09 p.m., the meeting was				
13	adjourned.)
